

THIN

#1 in thin computing worldwide

2007

2008

2009

2010

Thousands of organizations, large and small, are empowered by HP thin computing each and every day.

- Half of the Fortune 500's Top 25 companies have purchased HP thin clients
- HP ships more Windows-based thin clients than the next 5 competitors combined (IDC,1Q10)
- HP ships more Linux-based thin clients than the next 3 competitors combined (IDC,1Q10)
- HP ships almost 25% more thin clients than the closest competitor.
- In the last year, HP shipped an average of one thin client every 35 seconds.
- In just your lunch hour alone today, HP shipped about 103 thin clients. (HP ships more than 900,000 thin clients annually).

HP Mainstream Series Thin Clients

Simple, Responsible Productivity

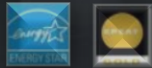

Secure connectivity with optional, enterprise-ready 802.11 a/b/g/n integrated wireless Ethernet

Built-in power cord retention slot **prevents accidental power disconnection**

OS Options: HP ThinPro, Microsoft Windows CE, or choose Microsoft Windows Embedded Standard 2009 for **local application support, including fully-featured Internet Explorer**

Superscalar VIA Nano u3500 CPU and VX900 Integrated Graphics Processor provide deliver **hardware assisted multimedia decoding for traditional PC media performance**

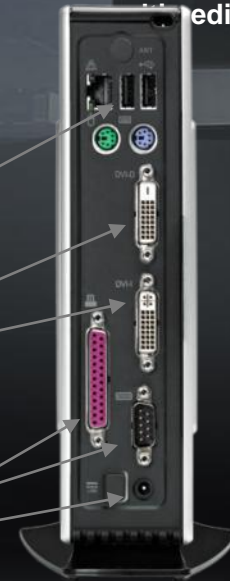

Designed with the environment in mind, BFR/ PVC-free,¹ and >10% post-consumer recycled plastics content

Secure USB compartment ideal for securing USB keyboard and mouse, or protecting USB wireless and flash devices

Flexibility to get the job done without expensive add-ons:

- Six USB ports
- Two DVI ports for dual monitor use (DVI-I and DVI-D)
- DVI-to-VGA adapter included
- PLUS serial, parallel, and PS/2 ports for legacy device compatibility
- Power cord retention slot

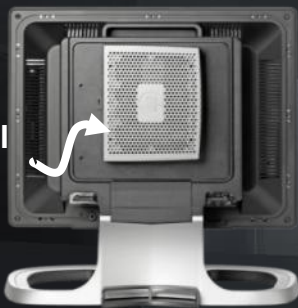

¹EPEAT® registered where applicable/supported, see www.epeat.net for registration status by country ²Integrated WiFi available on select models. Internet service required.

³Hardware-assisted decoding depends on driver support for the streaming media types and is not identical for all operating systems

Hardware Design

Engineered to adapt to today's and tomorrow's computing environments

Built-in power cord retention slot prevents accidental power disconnection

Fit to your space with flexible mounting to most any standard VESA display, or to nearly any surface with the HP Quick Release mounting bracket

Secure USB compartment ideal for securing USB keyboard and mouse, or protecting USB wireless and flash devices

Powerful memory and connectivity expansion with optional PCIe Expansion Module

**HP Quick Release and Integrated Work Center Stand are optional accessories*

Environment

*Better for the planet. Great for the budget.
A cost-saving, energy-efficient lifecycle partnership.*

Designed with the environment in mind.

With less materials than PCs and features that qualify all models for ENERGY STAR® and EPEAT™ ratings*

Low-impact packaging.

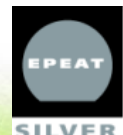

Reduced packaging is 100% recyclable

Energy saving.

Some models consume as little as 2.5 watts—
even in “awake” mode!

Planet Partners program.

Global reuse and recycling: we accept
both HP and competitor products!

SUSTAIN•ABILITY

HP THIN COMPUTING WINNING - ABOVE THE BOX!

HP doesn't sell a box... HP sells solutions!

- HP offers an unmatched portfolio of client virtualization solutions - servers, thin clients, and blade workstations.
- HP expertise with decades of PC experience
- Total Care Support
- HP Financial Services
- HP Asset Recovery
- HP Culture of Innovation
- HP is ranked #1 Green Corporation

THINK BIG.
